WHAT WE DO

HOW DOES REDISTRIBUTION ASSIST IN YOUR SUPPLY CHAIN?

Redistribution is an explosive way to grow and streamline the supply chain for Food Manufacturers and distributors. Redistribution allows for opportunity to reduce supply chain complexity, control costs, and reach new distributors.

Alpine services over 300 vendors through redistribution with just in time delivery of thousands of SKU's in one delivery. Benefits for distributors are faster turns, shorter lead times, lower minimums, and reduced cash flow. Food manufactures can reduce credit risk, access new customers with lower minimums, additional sales support, and one ship to, one bill to.
